SAMPLE ESSAY:

By volunteering at the Relay for Life, I am helping to promote the health, welfare and safety of the residents in my community. The American Cancer Society has projected that 1,638,910 Americans will be diagnosed with some form of cancer this year alone. In helping to raise funds for the American Cancer Society, we are helping to work towards finding a cure or at least treatments for people fighting this devastating disease.

At Relay for life, the activities I am participating in help raise money for cancer research. They also help recognize and give support to survivors of cancer and people currently in treatment. We also remember those we have lost to this disease. My specific duties included: setting up concession stands, putting up and decorating luminaries, working with young children in activities during throughout the day.

My volunteer activities made me more aware of what people go through when they have cancer, and gave me a better appreciation of my own good health. It is very satisfying to know that I have been a part of something that will help so many people.
