Why take an AP Class?

- Academically challenging
  - Rigorous learning opportunities
- Nationally recognized guidelines for curriculum and assessment
- College admission
  - Many colleges and universities recognize the rigor of AP classes in their applicants
- GPA - 6 point scale
- AP can help students get ahead in college
- Score a 3 or higher on AP exam, class grade adjusted to an A (WOHS only)**
- All classes on WOHS Campus
Frequent concerns with taking an AP class...

- I don’t think I will pass (or score high enough) on the AP exam to get college credit.
  - You don’t need to score a 5, many colleges grant credit, or placement, with a score of a 3.

- Taking AP classes could hurt my GPA.
  - Your decision to take an AP course shows admissions officers that you are willing to take on the academic challenge of college-level coursework and expectations.
  - Remember that quarterly grades do not count towards GPA.

There is no right or wrong, better or worse

Colleges are looking for well-rounded students that challenge themselves in their coursework- this includes AP and DE courses

Much consideration should be given to where you want to end up
  - Out of State or In-State?
What is GPA?

- GPA = Grade Point Average
  - A calculation of your average score on a weighted and unweighted scale.
  - Different institutions calculate GPA differently.
  - Honors, AP, DE, CTE, and other classes have varied weights.
  - Here in Orange County- AP, DE, CTE all weighted on a 6-point scale.
  - Honors classes are weighted on a 5-point scale.
  - Unweighted (standard) courses can lower your weighted GPA, but cannot lower your unweighted GPA.
  - Quarter/semester grades versus final grades

Examples:

- I take 4 classes this year and earn the following:
- How will my GPA be calculate?
